

## Clarification of fiscal requests and tax certificates

- The procedure is very clear: Everybody or every company can ask for a tax certificate once they have paid 40 € minimum if there is an organization authorized to do this.
- According to the fact that the **LIONS HERALDIC** needs to give the money to the chosen charity by the end of July, it is asked to all to send your tax certificate request before the end of June 2022. You can register for this on the Lions website under Splash 2022. (<http://lionsheraldic.net>)
- The list with all the tax certificate requests is then transmitted to the charity that will provide the tax certificate attestation. According to Belgian law the tax certificates are provided by the charity as from the **end of February and until mid June** of the FOLLOWING year.

Note: Many people expect tax certificates in the same year, but from the last point you will see this is **not the case**. It's important to correct participant expectations for this.
